The **CONTINENTAL**

The Mark X Cigarette Vending Machines have been on the market for over four years, and in that time have proved to be up to five times more successful than regular tobacco vending machines. The strategy of placing machines at eye level in high traffic areas creates impulse buying, and the unique and classic design are an enhancement to any locations. The Continental is available in any color of your choice, with accented coloring, the Mark X vending machines enhances the decor like a fine piece of furniture.

Slim Line Designs Ltd. has designed and manufactured vending machines for thousands of companies from large tobacco companies to small operators. We offer many color options along with glass engraving to customize the machine. Our designers are continually seeking new challenges and are pleased to be introducing four new models. We also offer custom designing and manufacturing.

Smartkit

*An Option for all our Manufactured Vending Machines.
The Smart Card will Replace Cash Everywhere.*

Designed for ease of use, **SmartKit** features a card acceptor, a user keypad and a backlit Liquid Crystal Display. Cash Card transactions are quick and simple. **SmartKit** will validate the Cash Card and authorize the transaction in just a few seconds. Depending on the card specification chosen, the card balance before and after the transaction is easily displayed.

Our design ensures wide system compatibility and simple future upgrading or expansion should the support of additional card schemes be required. **SmartKit** supports **VISACash**, **Mondex** and additional Cash Cards, as well as proprietary card systems.
